

I am poor. My family is poor. I can't pay our bills. My children no longer go to school because I don't have enough money for school fees.

When we get sick, we can't afford to see a doctor. Often we have only one meal a day.

Our rent is overdue. I am unable to pay back money I have borrowed.

No one wants to help me. My situation is hopeless. What should I do?

- * Beg for money in the street?
- * Try to win a lottery? * Steal and rob?
- * Engage in illegal activities to get money?
- * Join a revolutionary movement?
- * Use people-smugglers to go to another country to try to find work and money?

My situation is impossible.
Is there anything I can do?
